## Carey Medispa

As we write this newsletter, the weather is getting warmer, the days are getting longer, and budgets are getting tighter. We look forward to a bright spring and summer and have some new budget friendly products and treatments to tell you about that we think are perfect for this time of year.

### The VI Peel- Improved Results with Less Irritation

This is a new generation peel unlike any other. We are very excited about the results we have seen in our patients. Anyone who wants younger, healthier skin will benefit. The tone, texture, and clarity of the skin is improved. Age spots, freckles, hyperpigmentation, and melasma are reduced or eliminated. Lines and wrinkles are softened, due to the stimulation of collagen and elastin. The VI Peel is also highly effective in clearing acne for patients as young as 12 years old! The procedure is quick - 20 minutes. You may experience slight stinging for a minute or so. Down time is minimal to none. Mild flaking occurs for about 3 days, and your skin looks more beautiful in just one week!

## VIPEEL™

### Tired of Mascara?

Latisse is the first FDA approved medication to lengthen, thicken, and darken eyelashes. It is from Allergan, the makers of Botox. A nightly application with a brush - just as you would apply eyeliner, is all that it takes. Curious? You can still wear mascara for an even more dramatic look.

Allergan is also the maker of Juvederm and Juvederm Plus, natural fillers that are quick, cost effective, and medically approved products for a naturally younger look.

### New Colors From Jane Iredale

We love the azure blue gold dust powder that can be an eyeliner or eye shadow. This season, our best selling lip color is Julia. Julia was custom designed for and worn by Julia Roberts in her recent movie Duplicity. So Pretty!

### Important Reminders

Advanced Combined Laser Treatment by Dr Carey - A quick, "no down-time skin and wrinkle improvement.

Improve and maintain healthy skin with in office treatments with Cindy or Suzanne. Customized home care packages tailored just for you. Remember to follow up for updates and changes! The hands, arms, neck and chest areas respond well to these treatments as well. Look your very best in summer time clothes!

Sunscreen - Very Important! If you are using your sunscreen daily, congratulations! During these next few months it is critical to continue this routine and more! Anyone on Retin-A will be more sun sensitive. Not to worry! Most of you are already familiar with the Obagi Healthy Skin Protection and Young Melashade. We found another sunscreen by Elta MD that is budget friendly as well as an excellent product. For those of you who love the sun, stop in for a tube of the SPF 50 with 9% zinc oxide. It will not rinse off in water or drip into eyes and sting when you sweat. Great for swimmers, runners, walkers, golfers, skiers, gardeners, and all outdoor activities. It is also safe for use with children. When possible, seek shade if your shadow is shorter than you are!

### Special Events

Special events are fun and informative. We can plan small or large group events to discuss new products and procedures, and introduce you to our favorite representatives from the different companies. Please let us know if you would like us to plan an event for your group. Or visit our web site to see what is planned already. As always, we welcome your calls and emails!
